

## Information for applicants for an au-pair program

### Collection, Processing and Use of Personal Data

#### The responsible handling of your data is important to us!

In order to complete the au pair application, we will ask you to provide information about yourself. This includes e.g. information about your general state of health, allergies, previous illnesses and vaccinations, which are partly collected through self-disclosure, partly through a form filled out and signed by the doctor (health certificate). These items as well as your religious convictions are important for the application process as they determine your eligibility for the program, for the suitable match with a host family as well as for the in-country support abroad. In individual cases, participation in the program may not be possible due to health restrictions.

Since we may not process this data without your expressed consent, we ask you to agree to the following consent statement. Please don't hesitate to contact us if you have any questions.

Responsible authority in the sense of the European Union General Data Protection Regulation (GDPR) for the processing of data in the context of the application process is the AuPairCare Europe GmbH. You can find detailed information on data protection at AuPairCare Europe on our website at [aupaircare.eu/privacy-policy](http://aupaircare.eu/privacy-policy).

### Consent

I agree that my personal data and especially the information on my health, religion, criminal background and ethnic origin, may be collected, processed and used by AuPairCare Europe GmbH and passed on to the partner organization in the respective host country if this is necessary for the application process.

I am aware that the submission of this declaration of consent is voluntary and that I can revoke my consent at any time. Furthermore, I am aware that participation in the au pair application procedure and placement with a host family is generally not possible without this consent.
